Highlights:

- Curled-in hooks for safety
- Four convenient hooks to hang leashes on
- Made to hold up to the elements and animals
- Places leashes at a convenient height for most people

Carrying a leash around when training or playing with your dog can be an extra effort, but with the BarkPark Leash Post, your trips to the park will become a lot more enjoyable. The BarkPark Leash Post provides all dog owners with a handy and convenient place to hang an empty leash whilst training or playing. Got a lot of things to carry or a child with you? Then you can also secure your dog to the post with the leash, and get them so sit patiently whilst you get everything ready. For your added convenience, the BarkPark Leash Post can be mounted securely into the ground using anchor bolts or ground spikes, so even the strongest dog can't run away, near benches and tables, so that you too have a place to sit.
