Children will take a walk on the wild side with the Wildwood Boardwalk Playground. The Wildwood features three distinctly different climbers, in addition to stairs, to ascend to the 5-foot high centralized deck. The Inverted Arch Ladder is the easiest climber for children to start on. Each rung doubles as a hand and foot hold with a gentle slope upward. The Snake Climber and Spiral Climber are more vertical ladders where the difficulty is found in transitioning from the ladder to the structure. Once children have reached either the 3-foot or 5-foot deck, they have the chance to slide down. The 3-foot deck provides the fun of a small Wave Slide, while children will be left to ponder the possibilities provided with a Right or Left Turn Slide. At ground level, a Single Drum and a Ship's Wheel are places for children to slide through their imaginations.
