### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

The Boa Constructor Playground is a hanging and climbing paradise. Even at first glance, the play system's fun can be felt; almost every inch of the system is housing an activity. If a kid fancies climbing, the Overhead 90 Degree Swinging Ladder has them covered. It is accessible by the Vertical Ladder attached. Its rings are made of galvanized steel and keep children mobile as they try to get from one side to the other. The center of the Boa Constructor Playground keeps the fun going with three different slides; the Wave Slide, Right Turn Slide, and the Straight slide provide unique experiences and exciting stories. The Pea Pod Climber and Twisted Arch Ladder will get the kids back up to the slides for a continuous circuit of never-ending fun. The activities on the ground are plentiful too with attachments like the Single Drum, Rain Wheel and Store Panel. This unit has a lot going for it!
