

Adirondack Seaside Chair

MSRP \$505.00

SALE \$445.00

Highlights:

- Durable materials significantly remove maintenance needs
- Colors remain bright for years to come
- Angles chosen to perfect your comfort
- 6 slatted back provides excellent support

Whether you're relaxing at the seaside or just wish you were, the Adirondack Seaside Chair by Frog Furnishings provides you with the kind of comfort you usually associate with the best vacations. With this chair, you get both the traditional look of an ordinary Adirondack chair paired with additional comfort, thanks to the six thick Resinwood slats at the back, the wide arm rests, and the ideal angle to really get your rest on. The chair is made from 100% recycled plastic, meaning you get all the rest without any guilt, and as a bonus, the chair requires almost no maintenance at all. It's also UV resistant, so whatever striking color you choose, it's going to last through summer after summer as you enjoy the ocean breeze (or at least dream about it).

If you're looking for a little more room to really stretch your legs out, consider adding the Frog Furnishings Adirondack Ottoman, which attaches effortlessly to your chair.
