

Recycled Plastic Jameson Bench

MSRP \$926.00

SALE \$815.00

Highlights:

- Available in-ground or surface mount
- Made completely of recycled materials
- A durable and comfortable seating option/li>
- Comfortable seating due to bull-nose slats

The Recycled Plastic Jameson Bench by Frog Furnishings is the thicker and denser version of the Contour Bench by Frog Furnishings. If you are looking for outdoor seating that can handle large capacities of people, while still maintaining comfortability then this bench is what you need. Its rounded design allows users to sink right in and sit comfortably. It is made from eight 3-inch x 4-inch Resinwood slats, and has black powder-coated, heavy duty structural steel frames, creating a simple and appealing design. The top and bottom slats are bull-nosed (rounded) for comfort. The bench is available in brown, cedar, gray, or green. Heavy duty, zinc coated hardware is included with the bench. Surface wedge anchors come with the bench for mounting. The Recycled Plastic Jameson Bench frame can either be surface mount or in-ground mount. Bench frame comes in black metal.
