ASTM F1487-17

CPSC PUB #325

ADA Compliant

Simple, safe and small, the Lil' Sprout Play System has a lot to offer. Finding a planting spot for it is easy with its compact size with daycares, preschools and child cares being ideal places for it. While the structure will never grow, it will be there as the children using it do. The Lil' Sprout Play System's Sea Creature Climber is arguably the best way to the top. The various nautical lifeforms molded directly into the plastic creating a tactile experience. These act as footholds that are designed to guide children upwards. Once above, the exciting Double Slide is ready to send children careening back to the ground. Kids who need to rest their legs can stop at the Bongos for a little jam session and pass the time. Small in size but big in its possibilities, this structure is going to be enjoyed for hours and hours.
