### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

Hang ten on the Surfin' the Seas Play System. Three slides, three ground-level activities and a large elevated, gathering space will keep kids returning for more. This unit exudes opportunities for social interaction. The Double Slide is a unique activity that allows kids to group up and ride down together. They can pretend they are rafting down some rapids, riding a rollercoaster or taking a joy-ride in a hot-rod. For those that want to slide alone or have a different story that they are enacting, there are two Straight Slides. At the start of those slides, the deck forms a large hexagon that is ideal for kids to mingle. They might even play with the Gear Panel or glance out of the Bubble Panel before picking a slide. The ground houses imagination inspired activities like the Single Drum and Store Panel. The Surfin' the Seas Play System is an all-around great playground experience.
