COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

There are always taller mountains to climb on the Ranger Rock Play System. Split down the middle, children can max out at a 4-foot deck height or they can crank it to eleven with a staggering 7-foot Spiral Slide. The 4-foot side of the structure provides ample sliding opportunities with two Straight Slides, one of which can be reached by braving the Suspension Bridge across. The Pixel and Jungle Climbers provide alternate routes up to the Straight Slide with a set of Bongos underneath. For only the fierce of heart, there are the upper reaches of the system. A 6-foot Zig Zag Slide gives children other euphoria that they are sliding down a waterfall into a gentle pool at the bottom. Right through the Tube Bridge the Spiral Slide lies for those that could only dare. The system is designed to provide adventures to all school-aged explorers ready for the thrill. Add to their story by selecting any of our custom color powder coat paint and rotationally molded plastic colors.
