Find the ultimate playground hideout at the Scout's Stronghold. Situated up in the treetops under the shade of our Leaf Roofs, the structure is almost entirely at a 4-foot and 5-foot deck height. This gives the Zig Zag Slide an additional zing and even the Straight Slides are exciting while being at a reasonable height. The Pebble Bridge lends itself perfectly to that childhood favorite "The Ground is Lava" which will provide them with a safe place to play instead of inside the house. The Pixel Climber might seem out of place until its design is more closely analyzed. The digitally inspired climber connects at an angle to the greater structure providing a ramp that is augmented by cubes that provide geometric handholds. Both levels of the structure are covered in activities for everyone to enjoy at their own pace. The entire structure can be custom colored allowing you to create a one-of-a-kind haven for any scout.
