### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

The Jolly Jack Play System doesn't know what boredom is. Its eye-catching Lotus Leaf Toppers are sure to turn a few heads and convince nearby children to come examine what makes this unit so fantastic. From the top to the bottom, this structure has activities spilling out of it. Kids can open their own business when playing in the Store Panel located beneath the Straight Slide. This encourages creative playing and provides a mental workout. A Bench Panel is located nearby that can house a child in need of some down time. The Pea Pod Climber, Spiral Climber and Snake Climber make reaching the slides an interesting activity on its own. Up top, A Gear Panel and Drum Panel anxiously wait to be experimented with. The Gear Panel's gears swirl around when its lever is cranked and the Drum Panel makes noise when it is beat. Getting to the ground is the best part; pick a slide and go!
