With just one glance at the Balboa Landing playground, kids ages 5-12 will probably make a mad dash to its many different play spaces. This unique playground has a use zone of 32'x48' and can hold from 28-32 kids in the recommended age range. It provides a diversity of physical challenges that include an orbital ladder, a chain link climber, a disk pod climber, and two platforms. These are covered with ribbed roofs and feature elements such as a wave slide, triple rail slide, and several panels meant to educate and inspire play. There is an ADA transfer point along with steps for accessibility, and this recycled playground also comes with several impressive warranties. Many of the pieces and materials have 15-year warranties, and the recycled post offer lifetime warranties. This is a playground meant to last and also inspire active and social playtime, it can be customized to your needs and is a great solution.
