SALE \$24,109.00

Age Group: 5 to 12 years

Capacity: 22-26

Footprint: 17' x 28'

Use Zone: 30' x 40'

Parents may find it hard not to Join the Fun on this playground! With its long wave slide, tri-rung ladder, and different climbers, it can be tough to resist. Created for children ages 5-12, this recycled playground has a use zone of 30'x40' and will accommodate from 22-26 children in the set age ranges. It has two raised platform areas and an ADA transfer station for inclusivity. There is a pipe wall and a pipe ladder, a rockwall climber, and plenty of space below to serve as the world's best fort, hideout, or imagination space. Kids will easily socialize during active play in this dynamic space, and parents will be able to easily keep an eye out, as well. With its use of durable materials, this playground has warranties that cover many parts for up to 15 years, and the posts (made of recycled materials) are covered for a lifetime. This is also customizable and buyers choose their colors.
