

Early Years Rectangular Picnic Table

MSRP \$968.00

SALE \$814.00

Highlights:

- Made for younger children
- Rolled or beveled edges keep children safe from snags
- Very sturdy with extra support under the table and the seats
- Perforated top and bottom allow water or other liquids to flow off

The Early Years Rectangular Picnic Table is a great place young children to eat or do activities outdoors. With a 20-inch high table top and 12-inch high seats, it is a comfortable and accessible height for preschool aged children. The surfaces of its table and seats are made from sheets of steel which are perforated to allow water to drain through them, and have a thermoplastic coating which makes them more comfortable, insulates the metal so that it isn't cold to touch, and gives it even more weather resistance. The edges of every surface are rolled, removing the dangerous and uncomfortable sharp corners. There are three sizes available, with 4 foot, 6 foot, and 8 foot lengths. This way, you can provide exactly as much seating as you will need. This table can be installed on almost any surface with in-ground or surface mounting, or it can be installed with a portable base which allows it to be transported anywhere.
