The 4-Piece Small Dog BarkPark Kit has everything little dogs need to feel twice their size as they romp around. This kit includes a Paws Table, Doggie Crawl, Small Hoop Jump, and Weave Posts. The Doggie Crawl is made of heavy-duty roto-molded plastic that will last years of curious dogs climbing through it. The Small Hoop Jump is designed specifically for smaller dogs, with three rings at staggered heights that stay low enough for even the shortest of legs to jump through. The weave posts is a set of six flexible posts that dogs will have a ball weaving in and out of. After an afternoon of exciting play, pups and small pooches can stand tall on the Paws Table as they get their fur brushed. The 4-Piece Small Dog BarkPark Kit is what you need to have a successful dog park where owners will feel comfortable letting their small dogs roam free.
