The 6-Piece Small Dog Advanced BarkPark Kit includes several fun features for small dogs to enjoy and explore. The Doggie Crawl is made from heavy-duty roto-molded plastic so it will last for years. Dogs with a knack for adventure will have fun jumping up and down the three different level platforms that make up the Stepping Paws. More timid dogs can work up their confidence on the Dog Walk, which is made up of three non-slip planks that ascend, flatten, then descend. The Small Hoop Jump is designed specifically for those dogs that know size doesn't matter, with three rings at staggered heights that stay low for the shortest of dogs to jump through. Weave Posts, while being an iconic obstacle in dog shows, challenge and excite dogs as they tap into their herding instincts. The final product in the 6-Piece Small Dog Advanced BarkPark Kit is a Paws Grooming Table where dogs can rest after a playful day.

For those with a tighter budget, the 4-Piece Small Dog BarkPark Kit is another excellent option!
