**Fall Height:** 72"

**Use Zone:** 27' 9" x 27' 5"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

Good things come in twos, especially when slides are involved. The Pinnacle Hill Play System consists of two slides, two climbers, and two ground level activities; effectively shaking up the playground formula for the better. A Single Drum hovers near the ground and provides children with an outlet for musical expression. The Rain Wheel provides aural sensory stimulation with its gently falling internal beads. Getting to the top is part of the joy when using either the Wavy PE Rock Climbing Wall or Sea Creature Climber. One is decorated with a multitude of nautical lifeforms and the other mimics a rock wall. Two slides and a Bubble Panel dwell in the upper level. The Straight Slide is 6-feet above the ground and is a non-stop ride to the ground's surface. The Right Turn Slide is only 4-feet tall and supplies kids with a smaller journey. Two is better than one on the Pinnacle Hill Play System.
