ADA Compliant

The Bells and Whistles Play Structure has everything a preschooler could want. This unit has two Straight Slides on both sides connected by an Arch Bridge in the middle. This keeps a certain fluidity to a child's progression through the structure and finding a way to the ground a breeze. Climbing back up is just as easy, with the Snake Climber and Inverted Arch Ladder. Children can open and run their own store while using the Store Panel and when a break is needed, the Bench Panel literally has your back. The Bells and Whistles Play Structure comes in a variety of custom colors ready to spice up any outdoor venue. The materials that comprise this durable system are crafted with safety and longevity in mind; making this unit able to last through long hours of play and harsh climates. Kids deserve a playground with all the bells and whistles.
