

Plaza Bench With Back

MSRP \$1,557.00

SALE \$1,370.00

Highlights:

- Lower maintenance than most materials
- Environmentally sensible recycled plastic
- Comfortable armrests built right into frame
- Non-bonding surface makes graffiti come right off

The Plaza Bench is a simple but meaningful way to improve any public outdoor area. Whether serving as a place to rest for a moment, a place for friends and couples to hang out and talk to each other, a place to enjoy a good book, or a place for parents to relax while watching their kids play outside, benches like this one are important and useful for everyone. However, this is no ordinary bench. The back and seat each contain four 2" by 4" Resinwood slats made from high quality recycled plastic, which are contoured to maximize comfort. The entire frame is made from steel with a long-lasting silver powder coat finish, and the hardware exclusively uses rustproof stainless steel. The frame has some small holes for surface mounts, and all mounting hardware is included in the price. It is available in either a four or six foot long model to accommodate any amount of available space. A backless version of the Plaza Bench is also available for sale.
