Tots will be all smiles as they zip down their favorite grassy hill with the utterly charming and sweet Embankment Slide. A safe alternative to taller, freestanding slides, this version is accessible for kids to navigate all by themselves, which helps them to build independence and confidence. It offers a gentle (and picture-worthy!) ride to the bottom and has easy-to-grasp handrails for extra peace of mind. The slide is constructed of heavy-duty weatherproof commercial-grade plastic. It comes available in many colors to match your specific needs. Your kids aged two to five will zoom down the Embankment slide time after time, delighting in safe physical play. This slide does require a hillside and access from the exit back to the entrance.
