COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The Loop Whirler Overhead Spinner from Playground Equipment Dot-com is a ruggedly constructed outdoor recreation installation suitable for simultaneous play by up to four children. Working together, kids aged 5-12 can latch onto the easily graspable upper rings and generate the momentum needed to permit all users to lift their legs off the ground and spin through the air. In addition to the obvious fun value of zooming 360-degrees around, this spinner will encourage kiddos to practice teamwork, develop their upper arm strength, and work on their spatial reasoning skills. The Loop Whirler Overhead Spinner is purchasable in the colors displayed here or available in one of several alternate shades. The paint is applied as a powder coat finishing that is a proven method for keeping your playground investment looking attractive and bright for years to come. Just call or email one of our customer service representatives to learn about current options and discuss scheduling opportunities.
