COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The Radical Rotator Carousel by Playground Equipment Dot-com is a uniquely designed update on the standard merry-go-round. With its adornment of attractively angled bars and vivid coloring, this commercial-grade recreation product will definitely generate excitement in the play area on the grounds of churches, daycares, or schools. The layout of the bars on top of the platform isn't purely decorative either, as it allows for up to six children to ride simultaneously, with room both along the edges of the circle and within its center. Kids looking to fully enjoy the riding experience will probably need to enlist a grownup's help or recruit fellow friends to help generate the momentum necessary for optimal fun. This can be a great way for little ones to practice their teamwork and cooperation skills. The tenacious galvanized steel construction helps ensure that your product will stand up to years of regular use and withstand exposure to damaging wind, rain, and snow.
