---

This Adaptive Swing Seat by Superior enables playground managers and planners to create a more accessible and user-friendly recreation destination for children. Built to accommodate the requirements of special needs children, this commercial-grade swing features an adjustable belt harness that helps secure occupants to a durable one-piece seat. It would make a perfect addition to a site's existing swing frame or ask your sales representative about adding a compatible frame to the site. This seat encourages kids of all ability levels to interact and play together. The seat is made from roto-molded plastic and offers comfortable support for the back, neck, and head. Designed for youth between the ages of 2-12 weighing up to 125-pounds, this product comes with the seat, harness, eyebolts, and chains. It is easy to install, estimated at only one hour for one person. The Adaptive Swing Seat is available in standard Green, Blue, Holland Yellow and Dark Red.
