Capacity: 3-6

Use Zone: 16' 3" x 21' 2"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The Freestanding Curved Overhead Swinging Ring Ladder from Playground Equipment Dot-com is an ideal commercial-grade recreation unit for encouraging independent play that doubles as healthy exercise. The solidly built frame holds an upper horizontal bar with seven hanging handle grips. Either end of the climber features lower beams that shorter children can use to get a helpful boost to latch onto the first ring in the series. In addition to the sheer fun they'll get from swinging, children will also be developing their physical endurance and enhancing their upper body strength as they play. The elevated handles are easily gripped and connected to the overhead bar by short lengths of chain. These permit kids to build momentum to facilitate faster trips to and fro along their journey. With enough practice, youth will be displaying amazing climbing ability. This outdoor recreation unit comes in the color scheme shown here or you can have the hues adjusted to better match your site's overall plan. Please speak with a AAA State of Play representative to learn more.
