When it comes to climbing equipment, the 5-Way Dome Snake Climber stands out among the rest. Each ladder contains five alternating rungs, leading to the circular peak at the top. Kids can sit on top of the structure or beneath it, providing an effective fort for kids who will surely put their imaginations to use. Additionally, the zig-zag pattern of the ladders promotes agility and grip strength, providing a feeling of satisfaction once they surmount the ladder and reach the top of the structure. Climbing is a beneficial and thrilling play experience for children as they begin to develop muscle strength and advanced motor skills. The 5-Way Dome Snake Climber stands four feet tall, perfect for elementary-age kids who are seeking a challenge, but may be intimidated by anything much taller. Add the 5-Way Dome Snake Climber to your playground, and make the days of all kids who will definitely be drawn to this interesting installment on the playground.
