### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The Spacewalk Rope Climbing Course is a winning combination between an obstacle course and a net climber. Featuring galvanized steel bars that line the entire course, as well as netting consisting of nylon-coated steel ropes, the Spacewalk Rope Climbing Course can be completed in a few different ways. Whether kids climb on top of the netting around the entire course, or whether they decide to crawl under the steel posts and into the covered tunnels of the Spacewalk Rope Climbing Course, kids will have hours of fun on this unique piece of playground equipment. This elaborate obstacle course full of various play elements can support over 100 children at once, making it the perfect meeting spot. It encourages vital socialization and allows elementary-age kids to play together. Kids can race each other, or go at their own pace through the Climber Course, taking time to play on each individual station. However kids choose to go through the Spacewalk Rope Climbing Course, there's certainly no shortage of things to do.
