**Fall Height:** 66"

**Use Zone:** 29' 3" x 36' 8"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

Let the sun shine on your playground for all to see with the Sunshine Skyway Play System. Far from the typical commercial play structure, Sunshine Skyway is characterized by its two spacious Funnel Tube Bridges. Starting on the ground level, your playground-goers will be drawn to the Single Drum, which allows them to create percussive rhapsodies for all to hear, while playing with the Ship's Wheel will make any kid feel as though they're the captain of their own ship. When ready, children can scale the Vertical Rock Climbing Wall and reach the elevated portion of Sunshine Skyway. There, they'll find several exciting avenues of play, including a Ball Maze Panel, a Gear Panel, and a Clock Panel, all of which engage the minds and reflexes of young ones. Thanks to their spacious nature, the Funnel Tube Bridges also make for ideal locations that kids can use to hang out with their friends. Lastly, kids can descend the Right Turn Slide or the Spiral Slide back down to the ground.
