

## Rubberific Shredded Rubber Mulch

**MSRP \$1,215.00**

**SALE \$868.00**

### Highlights:

- Guaranteed to retain color for up to 12 years
- Non-toxic and IPEMA certified
- Color is resistant to inclement weather
- Made from 100 percent recycled rubber

The industry standard in recycled rubber mulch, Rubberific Shredded Rubber Mulch is realistically textured to look identical to engineered wood fiber mulch. It's designed not to fade or lose its color over time, making it a great option for outdoor areas that could use some visual flair. Although the shredded texture of Rubberific Shredded Rubber Mulch closely resembles real wood, one key difference is that it won't attract termites or other pestilent insects, which helps to maintain a healthy, green-filled landscape for years to come. One pallet of Rubberific Shredded Rubber Mulch contains enough material to cover an area of 75 cubic feet, while a half pallet offers roughly 37 cubic feet of coverage. Either option gives you more than enough material to transform any outdoor space into a verdant meadow. Additionally, since rubber mulch carries over twice the fall height rating of wood mulch, Rubberific Shredded Rubber Mulch can be used in areas where kids frequently play.
