- Made from high-density polyethylene
- Creates brilliant photo opportunities
- Made to stand outdoor weather
- Enables pet owners to take cute pictures of their pets

Having a dog at the wheel of the car may ordinarily be a recipe for disaster, but with the BarkPark Joy Ride, it's a recipe for cute photos and laughs. With this photo panel, dog owners can create photo opportunities for their dogs, who will be all too eager to pose behind the high-density polyethylene panel. The BarkPark Joy Ride is mounted using two powder-coated steel square posts, which ensure the panel stays up and stands the test of time. There's no limit to the amount of photos and fun that can be had using the BarkPark Joy Ride, great for dog parks and other outdoor areas where dogs abound. Dog owners can even include their small children in photos with their dogs, a great way to incorporate little ones into the fun.
