This Sand Hut Sandbox is a one of a kind play station that will be sure to give your kids hours and hours of fun and imaginative play! This sandbox has durable plastic lids that fold on non-pinching hinges to protect your fingers, as well as the fingers of your little ones. The lids protect the sand inside the box from the elements, as well as any critters that may want to play. The elevated sandbox is available with a 24" or 28" sand table height, making it perfect for infants, all the way up to preschool aged children. The lid opens up with a small finger-hole in the center, making it easily accessible when it's playtime. The roof stands nearly 84" at the top of the sandbox in order to shade children and protect them from the harsh summer sun. There are a million different ways that each kid can choose to play with this amazing tool that encourages their imagination and learning!
