ASTM F1487-17

CPSC PUB #325

The Sunny Sounds Music Package brings a bright, musical flair to any playground it's placed on. With so many choices among various types of playground equipment, music amenities stick out thanks to their interactive and fun nature. For instance, the Honeycomb Hand Drums allow various tones of percussive music to be made, and are arranged in a creative yet intuitive way, making them a great option for small children who wish to engage their creative brains. Meanwhile, the Flower Drum offers visual and practical appeal through its flowery shape and the pleasant tone it emits when struck. Lastly, the Glockenspiel can be used to make simple songs, and can be played by multiple children at once.
