ASTM F1487-17

CPSC PUB #325

The Sii Hurricane Spinner is a popular playground spinning event that allows children to grasp the handhold in the air and spin. The top is slightly angled by 15 degrees to allow for natural motion for users. Unlike ground-level spinning events, the overhead spinner will only allow users of age and proper height to grab and use event. Available in a variety of colors of paint for the top and post. Choose colors after accepting a quote with shipping rate.
