Use Zone: 1 Bay (40' x 33'); 2 Bays (40' x 44'); 3 Bays (40' x 55'); 4 Bays (40' x 66'); Measurement using Standard Belt Seats (changing seat type can change the required space)

The standard Tripod Swing from Superior International Industries is available at a 10-foot installed height. This height adds to kids enjoyment of the swing as their overall swing span is larger than that of shorter swings. The galvanized construction is durable for public use and built to withstand any natural element of wether and climate condition. Request your Tripod Swing 10 Foot from AAA State of Play and get a great price. Choose from models with and without seats and chain. This option allows buyers to use other seats rather than standard belt seats and galvanized chain. The swing specifications are as follows: 2-3/8" legs, 2-3/8" top rail, 10' installed height. The fittings (joint connectors) are painted at no additional cost.
