

Gas Station

MSRP \$2,111.00

SALE \$1,795.00

Age Group: 2 to 12 years

Footprint: 2' long x 4' wide x 6' high

Use Zone: No use zone required.

Children love make-believe, and this Gas Station apparatus is perfect for imaginative play. Children will be able to use this gas station to aid in games that relate to cars. The upright support posts for this station are perfectly durable, and are 3.5 inches in diameter. It is designed for in-ground mounting, making it perfect for use outside. The Gas Station apparatus comes with fake pumps so that children can pretend to fill up gas tanks, and also comes with a sign at the top. The unit is not possible to climb on, and is too high for children to be able to get on top, or endanger themselves. It is simply a great tool for imaginative play. Incorporate it into your playground for make-believe play.
