

Traditional Double-Sided Bike Rack

MSRP \$641.00

SALE \$545.00

The Traditional Double-Sided Bike Rack is ideal for larger parks or schools with more bicyclists. Multiple access sides allows bikers plenty of room getting in and out, reducing overcrowding. The 1.625 inch steel pipe includes 0.625 inch spacers. The double bike racks are available in 5 foot, 8 foot, and 10 foot lengths with add-ons to extend the rack in various intervals. The add-on capability allows for future expansion. Each rack and add-on is available as inground, portable or surface mount. One 5 or 8 foot bike rack can ship UPS. The specifications include 1-5/8 inch O.D. post, 3/4 inch O.D. rung bars, 5/8 inch spacers, heavy duty casted clamps, and all zinc plated hardware. The capacity per rack is 2 bikes per foot (5'=10 bikes, 8'=16 bikes, 10'=20 bikes). Available painted for an upcharge.
