The Happy Go Lucky Play System, so aptly named for the way children will feel there, can accommodate many playing children at once; creating organic social scenarios that could foster everlasting friendships. Leaving the ground isn't required to enjoy what this unit has to offer. The Store Panel, Ship's Wheel, Bongos and Car Panel are scattered around the base of this playground; keeping various activities within kids' reach. Three enticing climbers provide convenient entrances into the upper deck. The Pebble Climber tests balance as children hop to the top, the Arch Climber has indentations meant for providing a sufficient foothold and the Snake Climber is a curvy ladder evoking thoughts of a certain slithering reptile. The real fun is found above with the Spiral Slide, Right Turn Slide, Bubble Panel and Tic Tac Toe Panel. The Happy Go Lucky Play System will not grow stale.
