While the MyRider Easy Rider Trike may offer a traditional style at first glance, there is certainly nothing ordinary about it. This modern design took two years to develop and not one detail was overlooked. The welded steel frame is powder-coated to resist rust and scratches while the self-lubricating nylon bearings are made to last. This trike is as safe as it is comfortable and fun. There is no protruding hardware, no spokes on the rubber tires and it coasts a non-pinch hub design. Kids love it because the seat is comfortable and supportive, the handgrips are made from rubber so they are easy-to-hold and the pedals are angled to prevent slipping. It even has a trailer hitch on the back! The MyRider Easy Rider Trike has a 5-year warranty and ships fully assembled, so it can be used right away.
