**Unit Size:** 11-3/4" long x 2' 11-3/4" wide x 1' 6" high

Few classrooms have enough locker space. Every year, classroom sizes seem to grow; yet, space remains the same. The Value Line 10-Section Wall Locker is ideal for a growing class size or perfect for the room or daycare that does not have any lockers at all. The locker is a favorite pick by those that are limited on floor space! These wall lockers has two rows of five storage bins for children to store school supplies or winter weather items, such as hats and mittens, while hooks underneath hold jackets, hooded sweatshirts, book bags and umbrellas. What is great about this unit is that you can wipe it clean with ease and it resists stains and scratches, so it will continue to look great for a long time. Everything you need for assembly is included and a lifetime warranty is provided against defaults on manufacturing and materials.
